

Trillium Place New Leaf has recently opened a Woman's Recovery Home to provide stability and housing for individuals during early recovery. The recovery home houses 18 women and is free of charge for all residents. The purpose of the recovery home is to provide substance free living while residents continue to build knowledge and skills in their recovery journey. Trillium Place Recovery Home is currently looking for qualified individuals to volunteer their time in hosting a meeting inside the home. This would take place once a week at the convenience of the members available to host the meeting. Residents are currently attending outpatient therapy Monday-Thursday and would love to further engage in meetings outside of outpatient treatment. To arrange a meeting time or inquire about the Recovery Home, please contact Recovery Home Manager Kelsey Staley at 309-231-7334.
